DemeLENE™

DemeTECH® Polypropylene Sutures

Characteristics of Demo Series Polypropylene Sutures

Demo has high tensile strength

Very Supple

Has a Low Memory and Low Memory Curvature. Non-Elastic Polypropylene suture by Amino Acid Polymer

Demo Series Polypropylene Suture Needles are Manufactured from Type 300 Series Stainless Steel Alloy to Provide Extra Sharpness & Leading Edge Strength as the Leading Variable. All Suppliers of Sutures

Offered Sterile Individually Packed

Operating Room Ready Sterility is Ensured by Ethylene Oxide

UndyeFine	Monofilament	Fiber Reinforced Suture
Blue Polypropylene	Blue	Blue
